loyalty to your soul® workshop I: the foundational experience

“the greatest value I received from taking the ltyS workshop was learning how to forgive myself for my judgments. I was able to dissolve judgments I had my entire life which allows me to be free. Being surrounded by like-minded people and experiencing the entire weekend was very powerful for me. The workshop has given me tools that I can easily use and has changed my perspective on many aspects of my life.”

— Monica azhar

“After reading ‘loyalty to your soul,’ I wanted to see and hear the Hulnicks in person. They were amazing. The energy in the room was powerful. The book is great, but the experience of being in the room with Ron and Mary in person is very special. They have intuition and spirit that has to be seen and heard in the same room to understand. If you are considering enrolling full time in USM’s Master’s Program in Spiritual Psychology, the ltyS workshop gives you a chance to see and experience what everyone is talking about.”

— Emmett albergotti

“I read the book, ‘loyalty to your soul,’ before coming to the workshop; however, experiencing the process in person and with encouragement and support was so valuable. I was able to share the workshop with my family, and it was wonderful on many levels. I now have a better understanding of their experiences, and it was very meaningful to each of us individually and as a family unit. It will give us a lot of good ‘stuff’ to work with in the near and distant future.”

— jere friedman

“the ability to speak and be heard (in the trios) in a non-judgmental manner has been an experience I have never felt before. The safety that is felt is extraordinary: The feeling of love is so powerful.”

— Lucille Braheem

“The Loyalty to Your Soul Workshop was an amazing experience. I learned so much about myself and how to approach life. I left the weekend wanting to know more. That was the reason I applied to the Master’s Program.”

— Catherine Kaufman

“The message, principles, and practices of the book are incredibly powerful and can be life changing when put into practice . . . the way in which you help to create a safe place for us all to allow ourselves to become open and vulnerable here is simply magical . . . I just want to thank you from the bottom of my heart for a truly wonderful experience.”

— Kelly Schandel

“The inclusion of grads, current students, and those who are new to USM created a rich atmosphere of all different levels of experience and familiarity.”

— Sara Green

“In attending the ltyS Workshop, I discovered some very unique ways of approaching challenging situations that I face in my life . . . approaches that I feel to be practical and highly applicable. I believe the methodology explored to be brilliant. So much so, that I have now enrolled as a student in the full M.A. Program.”

— michael Mayzel

“ARe you one of the millions of people who are presently awakening to the realization that there must be more to life than a treadmill existence in an empty quest for ‘more’? If so, you are probably already searching for alternative ways of being in the world that have more meaning and purpose than the endless accumulation of ‘stuff.’

If you are among this vanguard responding to the evolutionary impulse moving on the planet at this time, you are likely ready for the Principles and Practices of Spiritual Psychology, a radical technology empowering you to convert everyday life experiences into rungs on the ladder of Spiritual Evolution—where true Meaning, Fulfillment, and Happiness are to be experienced.

It is in the spirit of new beginnings that we invite you to join Drs. Ron and Mary Hulnick, pioneers and innovators in the field of Spiritual Psychology. For the past thirty years, they have been Co-Directors of the University of Santa Monica, where they have developed, and continue to facilitate, the University’s extraordinary and innovative Master’s Degree Programs in Spiritual Psychology.

Drs. Ron and Mary Hulnick are well respected and known worldwide for their ability to support and guide students in discovering their own unique answers to life’s essential questions: ‘Who am I?’ ‘What is my life’s purpose?’ and ‘How can I make a more meaningful contribution in my world?’ In addition, Ron and Mary are licensed Marriage and Family Therapists, and Mary is also a licensed Psychologist.

LOYALTY TO YOUR SOUL®: The Heart of Spiritual Psychology

Loyalty to Your Soul® establishes Spiritual Psychology as a paradigm-altering frontier. It initiates a radical shift at the core of contemporary psychological thought by unveiling a technology for using everyday experiences as rungs on the ladder of Spiritual Evolution.

Experience the Value this Workshop Provides
Loyalty to Your Soul® Workshop I shows you how to first gain access to, and then gradually learn to live from, that sacred place within everyone, referred to by Ron and Mary as the Authentic Self—a place where emotional suffering ceases, where answers to life’s essential questions are self-evident, and where profound Peace and Love are present. While many people have written about such an inner state, Ron and Mary show you how to travel there . . . and what to anticipate once you arrive. Each participant in LTYSS® Workshop I will receive a complimentary copy of Loyalty to Your Soul: The Heart of Spiritual Psychology, published by Hay House in February 2011.

From Your Facilitators
“If ever there were two Soul-Centered Skills at the heart of Spiritual Psychology worth mastering, they would be Acceptance and Forgiveness—Acceptance of all life has to offer, including things I don’t like, and Forgiveness of the judgments of all I’m still learning to Accept.”

“From the vantage point of Spiritual Psychology, we see that we are Souls who have come here in this lifetime to fulfill spiritual curriculum. As spiritual beings, our primary goal is not to change life on this earth. Rather, life on this earth exists the way it does to provide us with experiences through which we can transform ourselves—meaning learning to express the essence of who we are in fuller and deeper ways. And the best description of our inherent nature is that we are, at our core, comprised of the energy we call Loving. So Spiritual Evolution is about becoming more and more aware of our nature as Loving beings. The irony is that the only way life on Earth transforms is when enough people transform themselves.”

—H. Ronald Hulnick, Ph.D., President

“Soul-Centered education recognizes spiritual reality and begins with the assumption that, rather than human beings who have a Soul, we are Souls having a human experience. This principle evokes a radical paradigm shift, which results in a psychological and educational process whose goal is to bring forth the Beauty, Wisdom, and Compassion inherent in every human being.”

—Mary R. Hulnick, Ph.D., Chief Academic Officer
